

SVE 2510

Now
manufactured
in India

Form, Fill, Seal, Form, Fill, Seal..... High-Speed Packaging Solution for Chips.

Bosch Packaging Technology presents SVE 2510 – the High-speed packaging solution for potato chips manufacturers in India. The continuous bag form, fill and seal machine packs up to 180 bags/min, or 3 bags per second thus making it the fastest packaging machine manufactured in India. High-speed apart, the machine expertly handles the larger dimensions of potato chips, resulting in packages which keep the crispness intact, reducing wastage and ensuring longer product shelf life. The state-of-the-art machine is backed by the Bosch stamp of quality, reliability and worldwide service back-up.

Now choose performance, cost-effectiveness and high-speed with Bosch.
