

Security Services

Robert Bosch Engineering and Business Solutions

BOSCH
Invented for life

Overview

In today's IT world, the number and variety of threats to any IT systems are incrementally increasing, as is the number of security products and services to address them. Any companies hosting IT business applications are particularly vulnerable to risks such as fraud, hacking or breaches of confidentiality which leads to loss of assets and damage to their reputation. For these companies, information and transactions need to be protected by means appropriate to their value and their potential for consequential loss.

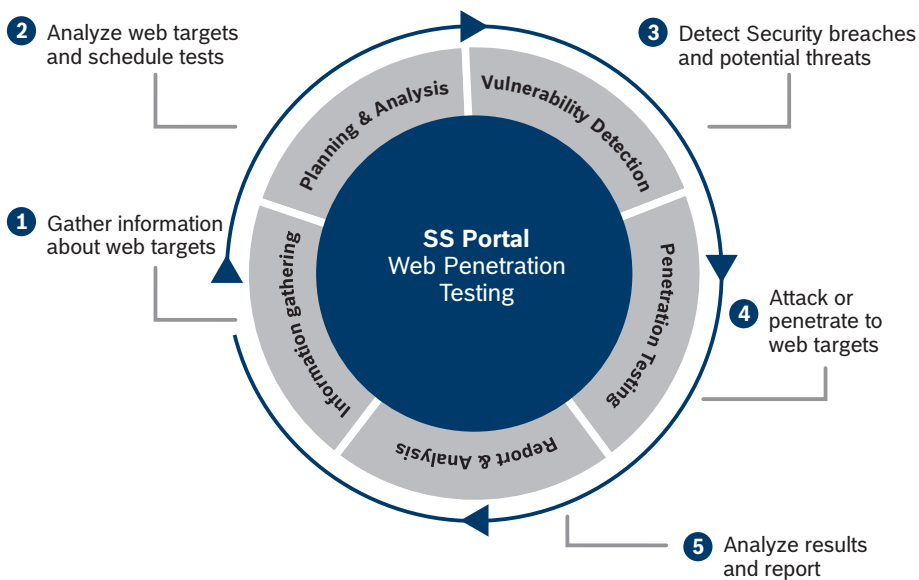

Our total security services address challenges faced by our enterprise clients throughout the world. Our approach is to help you build-in security right from the start. Working with you throughout the different stages of your IT business change cycle, we assist with the early identification of security threats through vulnerability assessment, penetration testing, and detection & response measures.

Our SS Portal is a complete security management portal which handles all phases of Security services from initiation, scheduling to closure of test cycles.

What we do?

- ▶ Safeguard organizations against business failure
- ▶ Provide assurance to customers
- ▶ Protect organization's information assets
- ▶ Reduce liability and business risk
- ▶ Counter emerging threats
- ▶ Implement security portal
- ▶ Adherence to industry standards (e.g OWASP)

About us

Robert Bosch Engineering and Business Solutions Limited (RBEI), is a 100% owned subsidiary of Robert Bosch GmbH, one of the world's leading global supplier of technology and services, offering end to end engineering, IT and Business solutions.

With over 8500+ associates, we are the largest software development center of Bosch, outside Germany, indicating we are the Technology Powerhouse of Bosch in India. We have a global footprint with presence in US, Europe and the Asia Pacific region. We are ISO 9001:2008 certified (2009), appraised at CMMI-L5 (2006) and also ISO 27001 (2009). We have five state-of-the-art facilities spread across Bangalore and Coimbatore in India and Ho Chi Minh City in Vietnam.

Our Mission

Committed to deliver the enduring Bosch Advantage through Quality and Innovation.

Web Penetration testing

- ▶ Information gathering
- ▶ Planning and analysis
- ▶ Vulnerability detection
- ▶ Attack / Penetrate
- ▶ Reporting
